Dear Future Employer,

In my pursuit of new creative endeavors, I am excited to begin my career path. I am most interested in applying as a graphic designer. As a creative person with artistic experience, I believe that I can bring valuable contributions to the team.

By utilizing past projects along with my education, I have learned the importance of organization and being open to new ideas. I have learned how to move past obstacles and flow with the punches. Not only do I know how to use the Adobe Creative Cloud to my advantage, but I also know how to use multiple different art programs on both the computer and a tablet. I have taken multiple classes on photography and have learned how to use both my art and photography for design.

Formerly in a past project, my success stemmed from communicating with Aurora University's theatre department and collaborating with one of its actors. Through multiple meetings, I was able to come up with a design for the character's poster. I was able to enhance my communication abilities and cultivated a reputation as a major contributor through time-management and organization. I am a collaborative team player who is always searching for opportunities to add my own creative spin to projects.

For a greater presentation of my background and qualifications, please review my attached resume. I am eager to speak with you and greatly appreciate your consideration.

Sincerely,
Susan Chiano
